OBSERVATIONS AND COMMENTS FROM THE RCRA
INSPECTION OF WATKINS PRODUCTS INCORPORATED
WINONA, MINNESOTA (MND006158703)

1. A RCRA inspection of Watkins Products Incorporated, Winona, Minnesota was conducted on August 13, 1981 by Terry J. Hader of the Minnesota Pollution Control Agency (MPCA).
2. A visual inspection of the facility was conducted, at which time it was noted that controlled entry was provided to the active portions of the facility; storage of hazardous wastes was indoors, in an enclosed and locked building; flammable hazardous waste was stored in a separate, locked room; no smoking signs were posted; and fire extinguishers and safety equipment were located throughout the facility.
3. The company has submitted a notification of hazardous waste site to the U.S. EPA (April, 1981), however, a final determination is pending regarding the storage facility status at this time.
